

Psyc202 Qualtrics Assignment

Today we will be creating a Qualtrics survey, taking the survey ourselves, and looking at the data in excel.

1. Register on Qualtrics using your CSUF email
 - <https://www.qualtrics.com/>
2. Create a new Survey to answer the following question:
 - How does the number of credits taken by a student affect their satisfaction with school?
3. When you publish your survey, you will be given a URL. Copy that URL to the Lab 4 forum on Titanium.
 - What to post on forum: *Full name: survey URL*
4. Summarize the decisions you made in your survey in a word document. Submit this on Titanium.
 - Explain confounds you chose and why you think they will affect the results.
 - Explain your response types (e.g. satisfied, neutral, unsatisfied) and how you would have used them in data analysis (means, percentages, graphs, etc.).
