# Planning and reading

- Planning
  - Choose a psychology topic that you would be interested in reviewing
  - What key words will be associated with your topic?
  - If your topic has multiple aspects (e.g. WM and schizophrenia) what articles do you need for both?
- Reading and research
  - Collect relevant research to your topic
  - Read each to make sure they pertain to your topic
  - Summarize each one\*

# Think, pair, share

- Come up with a topic and discuss it with your neighbor.
- Offer each other critiques and suggestions on the topics.

# Summary

## (Submitted for Lab 9)
