

PSYC202 Lab: Introduction cont.

Given the hypothesis and the references below, write an introduction section. Feel free to add references if needed. Include a reference section at the end.

Hypothesis: *High multimedia use will increase the likelihood of having attention-deficit/hyperactivity disorder (ADHD).*

What is ADHD?

- Biederman, Joseph. "Attention-deficit/hyperactivity disorder: a selective overview." *Biological psychiatry* 57.11 (2005): 1215-1220.

ADHD and impulsivity

- Winstanley, C. A., Eagle, D. M., & Robbins, T. W. (2006). Behavioral models of impulsivity in relation to ADHD: translation between clinical and preclinical studies. *Clinical psychology review*, 26(4), 379-395.

High multimedia use is negatively correlated with impulsivity

- Sanbonmatsu, D. M., Strayer, D. L., Medeiros-Ward, N., & Watson, J. M. (2013). Who multi-tasks and why? Multi-tasking ability, perceived multi-tasking ability, impulsivity, and sensation seeking. *PloS one*, 8(1), e54402.
